

NAME INDEX

This all-name index includes the names appearing in the text. The terms “Jr.,” “Sr.,” and “2nd” have been eliminated because they are time-dependent titles that can vary over the life of an individual. Titles such as *Mrs.*, *Dr.*, or *male* are used only when there is no other identifiable given name. Military titles of *Col.*, *Capt.*, and the like are used only when no first name is given.

To ensure that all references have been seen, the entire page indicated should be scanned. It is common to have the same person mentioned many times on one page. This index uses the common spellings of surnames when present in various forms. All initials have been indexed under the full name when known, otherwise they do not appear here at all.
